Subject: Microsoft Settlement

I think the proposed settlement is a bad Idea. It is not an effective way to encourage free enterprise. Microsoft should have to pay adequately for the immense number of anti-trust violations over many years which have never been corrected. I do not want to live in a society where computing is dominated by one monopoly company any more than I wanted to have a monopoly run our phone services. Please take the appropriate steps to protect consumers. You owe it to the American public.

Sincerely,

Jim Matisi
